PROVEN SUCCESS

DIVERSE DATA ORGANIZED

For a benefits brokerage firm, we developed a system that organized data from diverse sources into a one-stop application, dramatically reducing the amount of time necessary to perform daily task and generate reports.

STREAMLINED AUTOMATION

For a professional employer organization, we automated status change form processing from a task that took 134 hours to a 3 minute data-entry process.

STRONGER WEB PRESENCE

For a refinery, with virtually no exposure for their website, we modified the site, and optimized it, moving it from page 14 to the second result on page 1 of Google's search engine.

ENHANCED CUSTOMER INTERFACE

For a condo travel company, we reduced a complex reservation system to a faster, simpler one, and created a single template for large group booking that gave the company better and faster control.

Whether it's web design, e-marketing, e-commerce, database and reporting, or custom technology training for your staff, CxT Group, Inc. programmer/analysts tailor strategies to your needs and opportunities—offering technology to meet your business objectives. Our skills and experience are at the heart of our worry-free lifetime guarantee to keep your business technology running as designed.

LIFETIME SATISFACTION GUARANTEE

CxT Group, Inc. provides quality solutions with a worry-free guarantee. If you should ever experience problems due to programming errors, we will fix the problem FREE OF CHARGE. We hold this promise for the lifetime of our solutions.
